

**WHAT IS CLAIMED IS:**

103X  
1005007-9245007

1. A golf chipping target which may be used on a play surface, comprising:  
a large target defining a perimeter for receiving golf balls chipped by a golfer;  
a support attached to said target for supporting said large target above a surface;  
a first net attached to said perimeter of said large target for retaining golf balls passing through the large target;  
a second target removably connected to said large target, said second target being smaller than said large target; and  
a second net attached to said second target for retaining golf balls passing through said second target.

11

2. The golf chipping target of Claim 1, further comprising:

a third target, said third target removably connected to said large target; and  
a third net attached to said third target.

1

3. The golf chipping target of Claim 2, wherein said third target is removably connected to said second target.

16372v  
4. The golf chipping target of Claim 1, wherein said large target is pivotally connected to said support.

16372v  
5. The golf chipping target of Claim 1, further comprising stakes for securing said support to the surface.

16372v  
6. The golf chipping target of Claim 1, wherein said support comprises a pair of legs.

16372v  
7. The golf chipping target of Claim 6, wherein said pair of legs are attached to diametrically opposed positions on said large target.

16372v  
8. The golf chipping net of Claim 6, further comprising a cross member connected to said pair of legs.

16372v  
9. The golf chipping net of Claim 1, wherein said second target is removably connected to said large target by a strap, said strap removably attached to said large target.

16372v  
10. The golf chipping net of Claim 9, wherein said strap is removably attached to said large target with snaps.

104 target.

11. The golf chipping net of Claim 9, wherein said strap is sewn to said second

104 strap connected to said third target.

12. The golf chipping net of Claim 9, further comprising a third target, said

104 to said target.

13. The golf chipping net of Claim 12, wherein said strap is removably attached

104

14. The golf chipping net of Claim 13, further comprises added straps, and wherein said strap is removably attached to said third target with said added straps.

104

15. The golf chipping net of Claim 1, wherein said first target and second target are concentric.

104

16. The golf chipping net of Claim 2, wherein said first target, said second target, and said third target are concentric.

17. A method for assembling a golf practice device, comprising:  
providing a first target;

102X2V  
102V

attaching a pair of supports to the first target by pivotable connections;  
adjusting the angle between the first target and the pair of supports; and  
tightening the pivotable connections to fix the angle.

102X2V  
102V

18. The method of Claim 17, further comprising providing at least a pair of threaded retainers and tightening the pivotable connections by tightening a threaded retainer onto a threaded fastener.

102X2V  
102V

19. The method of Claim 17, further comprising attaching a second target to the first target, the second target being smaller than the first target.

102X2V  
102V

20. The method of Claim 19, further comprising attaching the second target to the first target by straps.

102X2V  
102V

21. The method of Claim 17, further comprising attaching the pair of supports to the first target at diametrically opposed points.

102X2V  
102V

22. The method of Claim 17, further comprising attaching a second and a third target to the first target, the second target being smaller than the first target and the third target being smaller than the second target.

103 AV Y

23. The method of Claim 22, further comprising providing straps; attaching the second and third targets to the first target by the straps.
